EXTENSION ROD

ACE manufactures high-quality rock drill extension rods, available in both round and hexagonal types. These rods, such as R22, R25, R28, T38, and T51, are widely used for bench, production, bolt hole, and long-hole drilling applications. Designed for durability and precision, they connect via male threads and coupling sleeves, making them suitable for various drilling fields.

Thread	ACE Part No	Length (L)		Dia		Type	Reference Part #
		mm	Ft	mm	Inch	,,	
R22 - R22	AER800 - R22R22	800	2.7	22	7/8"	Hex	7851 - 1308 - 20

Applications:-

Thread Pitch .790"

- It is widely used in open-pit mining
- Underground mining, tunneling, anchoring, furnace tapping
- Tunnel construction, hydropower projects
- Quarrying and construction
